

How to enter PAKTURK 2023 TEAMS rooms (USING MS-TEAMS APPLICATION INTERFACE)

Step 1 : Make sure that your microphone works seamlessly and without noise.

Step 2 : Make sure that you have been delivered with a TEAMS CODE.

In the e-mail text, it will be written as :

Your TEAMS CODE is "OVKT67" !

**The code above is not real !
(Illustration purposes only)**

Note that each day of conference will have a different room, and TEAM CODE will be different for each day. After you enter PAK-TÜRK 2023 TEAMS page, you need to find the meeting scheduled for the current day and enter corresponding room.

It is very important to keep this in your mind! Otherwise you may well be attempting to enter a room not relevant to our meeting.

Following pages will be helpful for you to avoid possible confusions and unnecessary loss of time before and during your presentation.
